

THIS FORM MUST BE USED FOR ALL PLAYERS

Dear Parent

Please read the following two league registration rules, then sign below indicating that you are fully aware of said rules.

RULE ONE

If a player's team does not register in the fall, and that player chooses to play for another team, then said player is a transfer player when he or she returns to their original team in the spring. No team may accept more than 3 transfer players during the seasonal year, so said player must understand they run the risk of not being able to return to their original team, if said team has 3 transfer players. If they roster on a tournament team and the team does not disband before September 1st, they are bound to that team.

RULE TWO

Once a player registers for a team for a season that player is bound to that team. He or she may not transfer to another team unless they sit out September or March or 30 days after a request to transfer is submitted if submitted after March 1 or September 1. If they roster on a tournament team and the team does not disband before September 1st, they are bound to that team. I fully understand the above rules, and willingly register my child.
