ADVERTISE WITH FLORIDA ELITE VOLLEYBALL CLUB

Florida Elite Volleyball Club was originally founded as the Volusia Volleyball Club in 1992. It then evolved into Daytona Beach Juniors. In 1998, Daytona Beach Juniors became a USAV only club. A few years later, it was evident that more people needed to play, thus arose the need for AAU volleyball. So Florida Elite Volleyball club was then formed to allow young ladies the chance to play volleyball in AAU, and then to progress to play USAV volleyball.

The mission of Florida Elite Volleyball Club is to provide young ladies the chance to play volleyball in a competitive and nurturing environment with the benefits of improving their skills for high school and beyond, a great social experience, and scholarship opportunities for college.

Florida Elite Volleyball is based out of Volusia County, but it may also serve our surrounding counties as well. Practices are at various sites throughout Volusia County twice a week. Tournaments are played twice a month starting in January and continuing through the first part of May. Most tournaments for AAU are one day and two days for USAV.

The director of Florida Elite Volleyball is Cara Swayze. The director is responsible for coordinating practices, tournaments, coaches, and teams. This year Florida Elite Volleyball will hope to field an 18's, 17's, 16's, 15's, 14's, 13's, 12's, and a 10 and under team for competition.

We are looking for advertisers for our website; so that we may in turn help our players pay for their dues and continue our scholarship fund for each club year. Gym fees, membership fees, and travel have increased significantly in cost. In order for our program to succeed we ask for the community to help our players. Our organization is covered under AAU's umbrella as a non-profit entity. Your company can benefit from donations. Please consult your tax advisor for the best benefits. Your company can choose from one of the three categories below to help. Our goal is to help our players in need of financial assistance. Please consider any of the following to help. If an athlete has come to you requesting help, 90% of the money donated will go directly to the athlete's fees until paid in full. Any extra will then go into the general club fund. The other 10% will go into a scholarship fund for the upcoming year.

Thanks for your support!

Cara J. Swayze
