

SCORING INSTRUCTIONS

This scorebook is intended to enable a team to record each lacrosse game as fully as possible. We recommend that the scorekeeper be familiar with the book and the official rules governing the functions of the scorekeeper and timer. It is advisable in most cases that a spotter be assigned to help the scorekeeper.

BEFORE THE GAME enter team names, coaches names, team records, and other required information. Place an *H* or *V* in the box to the left of the team names in the running score column to indicate home and visiting teams. Enter your own team's roster on the left hand page by position as indicated, including full name and number. Goalies appear at the bottom of the player column and their numbers are repeated directly below.

Enter opponent's roster similarly on the right hand page.

Slash quarters played for each player as he enters the field.

Record team statistics with neat vertical lines in the appropriate boxes at the right of each page. Shots should also be credited to the individual player. In Ground Balls column (GB's) enter the total number of ground balls the appropriate player attained for all four quarters, including overtime if applicable. Goalie saves are recorded in a similar manner at the bottom of each page. Be sure that you only indicate saves as defined by the lacrosse rules.

Enter the totals of team statistics at the end of each quarter and the total of goalie saves at the end of each quarter.

GOALS SCORED are recorded in the four-part boxes provided in the running score column along the top of the book. The upper left section of each box shows the time of the goal. The lower two boxes record the number of the scorer and the player assisting. Fill in the assist box with a dash or a *u* for unassisted goals. The small box at the top right is intended to provide space for indicating the type of goal scored with a letter code. Coaches may use this box as they see fit.

A suggested set of initials is:

- | | | | |
|---|------------------------------------|---|-----------------------|
| B | Broken clear resulted in goal | F | Fast break goal |
| C | Cutter scored after receiving feed | O | Outside shot scored |
| D | Dodging goal | X | Extra man play scored |

Also credit players with goals and assists with a mark in the columns opposite their names.

Fill in a dark, heavy line at the end of the running score for each quarter to separate the periods. Enter the total of goals scored in the appropriate boxes at the end of the running score column.

PENALTIES are recorded by filling in: the duration of each penalty in the penalty time (P.T.) column; the offending player's number; his infraction followed by his number of penalties in the game; the period; and the time of the penalty.

TIME OUTS are indicated by entering the time taken and the period in the boxes provided.

After the game, enter the totals of game statistics and of individual player's shots.

In GAME SCORING enter the numbers and names of the appropriate players with their total goals, assists, and points. Cross check the totals of goals and assists to be sure each player is credited accurately.

Composite team record sheets are provided at the rear of the book for season totals of goals, assists, total offense and penalties.

Brine, Inc. strives to provide the best in lacrosse equipment, accessories, and service. It is our hope that this book can contribute to the success of your program.
